

VII La Salle Summer Program

On Leadership and Global Understanding

08-21
JULY
2018

What is the La Salle Summer Program?

Our primary objective was to create students who come to understand value and accept their responsibility to become active citizens in their community, sensitive to cultural diversity, so that they may assume active leadership roles and help others do the same. The Program aims to integrate service learning, community leadership, intercultural / international studies and student-centered pedagogy. The key to such an objective is the integrative student centered pedagogy where students assume primary responsibility for their own learning, by way of a problem solving, critical thinking approach.

Brazil, here we come!

After six years, we are coming to South America. La Salle Rio de Janeiro will be our home for two weeks in 2018. Come join us in this tropical adventure!

‘Lasallians without limits’

The activities of our VII Summer Program will be reasoned by the theme for 2017-2018 years established in the Circular 470. We live in a world where our everyday lives are affected by the actions of people who may not live in our immediate region, or even country. If we are to be truly effective leaders, there must be a level of mutual understanding and cooperation.

“I believe that this program is essential for the establishment of a global Lasallian community based on faith, community and service. Together, we are stronger”
